KARTIK KURHEWAR

Software Engineer

kartikkurhewar@gmail.com · +91-8830556394 · LinkedIn · Portfolio · Pune, India

PROFESSIONAL SUMMARY

Results-driven Frontend Engineer with 4+ years of React.js experience building GenAI-enabled products and delivering measurable outcomes: 30% faster page loads, 25% fewer bugs, and 40% faster onboarding. Skilled in scalable component architecture, prompt engineering, and shipping production-grade responsive UIs from design to deployment.

EXPERIENCE

Software Engineer | Cognizant

Pune, India · Dec 2021 – Present

- Delivered pixel-perfect, responsive UIs from Figma using React.js, HTML5, and CSS3 — shortened the design-to-deployment cycle by 25%.
- Architected a scalable component system with React Hooks, Context API, and Redux — lowered state-related bugs by 25% and enhanced maintainability.
- Boosted page load speed by 30% through lazy loading, code-splitting, and component-level memorization.
- Integrated RESTful APIs end-to-end — decreased frontend–backend integration time by 20%.
- Implemented secure authentication and authorization using Auth0 and Firebase — strengthened access control and reduced unauthorized access risk.
- Built interactive Chart.js dashboards — boosted stakeholder understanding of key metrics by 75%.
- Shipped and deployed React applications to Google Cloud Run and Azure using CI/CD pipelines — ensured reliable releases and stable production performance.
- Accelerated development workflows using AI coding assistants (GitHub Copilot, Claude Code) for scaffolding, refactoring, and test generation while maintaining engineering standards via reviews.
- Applied prompt engineering to translate business requirements into structured outputs (UI copy, validations, edge cases) and to speed up troubleshooting across frontend integrations.
- Mentored 3 junior developers through code reviews and pairing — accelerated onboarding by 40%.

PROJECTS

Fraud, Waste, and Abuse (FWA) Detection System

- Built a React UI for GenAI-driven FWA workflows to search/filter/categorize documents with nested case views.
- Tech: React.js, Redux/Context API, REST APIs, Auth, Prompt Engineering, GenAI/LLM APIs, HTML5, CSS3, Bootstrap, Google Cloud.

Marketing Content Assistant — Healthcare Payers

- Built a responsive React UI for a GenAI marketing content assistant; improved document processing by 40%.
- Tech: React.js, Redux, REST APIs, Prompt Engineering, GenAI/LLM APIs, Azure.

Healthcare Document Information Extraction

- Built the React frontend for GenAI document extraction; improved throughput and UX by 40%.
- Tech: React.js, Context API, REST APIs, Prompt Engineering, GenAI/LLM APIs, Google Cloud.

TECHNICAL SKILLS

Frontend	React, JavaScript, HTML5, CSS3, Tailwind, Bootstrap, Redux, Context
Backend	REST APIs, Node.js (basics), SQL/PostgreSQL, Auth0, Firebase Auth
DevOps	Git/GitHub, CI/CD, Vite, Cloud Run, Azure
GenAi	Prompt Engineering, Copilot/Claude, LLM APIs
Process	Agile/Scrum, Reviews, Mentoring, Collaboration

EDUCATION

Bachelor of Engineering — Information Technology · Priyadarshini College of Engineering, Nagpur *July 2017 – Aug 2021*
