PROFESSIONAL SUMMARY

Frontend Engineer with **4+ years of React.js experience** building **GenAI-enabled products** and delivering measurable outcomes: **30% faster page loads**, **25% fewer bugs**, and **35% reduction in user-reported issues**. Skilled in **scalable component architecture**, **prompt engineering**, and shipping **production-grade responsive UIs** from design to deployment on **Google Cloud** and **Azure**.

EXPERIENCE

- **Cognizant** Pune, India
Software Engineer Dec 2021 – Present
 - **GenAI Product Delivery:** Led frontend on **3 production GenAI healthcare products** (FWA Detection, Marketing Content Assistant, Document Extraction)—integrated **LLM APIs**, **prompt-driven workflows**, and **role-based access control** on **Google Cloud** and **Azure**.
 - **UI Development:** Delivered **pixel-perfect, responsive UIs** from Figma using **React.js**, **HTML5**, and **CSS3**—shortened the design-to-deployment cycle by **25%**.
 - **Component Architecture:** Architected a **scalable component system** with **React Hooks**, **Context API**, and **Redux**—lowered state-related bugs by **25%**.
 - **Performance Optimization:** Boosted page load speed by **30%** through **lazy loading**, **code-splitting**, and **memoization**; ensured cross-browser consistency across Chrome, Firefox, and Safari—cutting browser-specific bugs by **40%**.
 - **API Integration & Auth:** Integrated **RESTful APIs** end-to-end, reducing integration time by **20%**; secured apps with **Auth0** and **Firebase**, eliminating unauthorized access incidents.
 - **Data Visualization:** Built interactive **Chart.js dashboards**—boosted stakeholder understanding of key metrics by **75%**.
 - **Cloud Deployment:** Deployed React apps to **Google Cloud Run** and **Azure** via **CI/CD pipelines**—achieved **100% uptime** and improved release velocity.
 - **AI-Assisted Development & Prompt Engineering:** Used **GitHub Copilot** and **Claude Code** for scaffolding and refactoring; applied **prompt engineering** to translate business requirements into structured UI outputs and edge cases.
 - **Debugging, Testing & Refactoring:** Cut user-reported bugs by **35%** through **unit testing** and **usability testing**; refactored legacy codebase to modern React patterns—reduced code review turnaround by **30%**.
 - **Mentoring & Agile Collaboration:** Mentored **3 junior developers**, reducing ramp-up time by **50%**; drove sprint ceremonies that cut blockers by **30%** and improved on-time delivery.

TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript, TypeScript, HTML, CSS, Tailwind, Bootstrap, Redux, Context API
- **Backend/Database:** REST APIs, Node.js (basics), SQL, PostgreSQL
- **Auth & Security:** Auth0, Firebase Auth
- **DevOps:** Git/GitHub, CI/CD (GitHub Actions), Vite, Webpack, Google Cloud Run, Azure
- **GenAI:** Prompt Engineering, GitHub Copilot, Claude Code, LLM APIs
- **Testing & QA:** Unit Testing, Usability Testing
- **Soft Skills:** Agile/Scrum, Code Reviews, Mentoring, Cross-functional Collaboration

EDUCATION

- **Priyadarshini College of Engineering** Nagpur, India
Bachelor of Engineering in Information Technology July 2017 – Aug. 2021
